

Netherton C of E Primary School - Science Roadmap

In EYFS, science is covered in the 'Understanding the World' area of the EYFS Curriculum. It is introduced indirectly through activities that encourage every child to explore, problem solve, observe, predict, think, make decisions and talk about the world around them.

In Key Stage 1, children are taught science weekly, expanding on concepts covered in EYFS. Units focus on chemistry and biology, through which children develop their scientific enquiry skills.

In Key Stage 2, children are taught science weekly, expanding on substantive knowledge from Key Stage 1. Units focus on chemistry, biology and physics, through which children further develop scientific enquiry skills.
